

DS-2CD3T46G2-4IS(Y) 4 MP AcuSense IR Fixed Bullet Network Camera

Empowered by deep learning algorithms, Hikvision AcuSense technology brings human and vehicle targets classification alarms to front- and back-end devices. The system focuses on human and vehicle targets, vastly improving alarm efficiency and effectiveness.

Hikvision has been dedicated to develop products with security since established. Hikvision always follows security by design principle and has adopted many methods of security technologies into our product development lifecycle, including terminal security, data security, application security, network security, and privacy protection. In the meantime, the security technologies used by Hikvision are all in compliance with local applicable laws and safety regulations. These security measures could enhance product's cyber security protection capability and protect your devices as well as your data from malicious cyber attacks.

- Supports Hikvision Embedded Open Platform (HEOP) and importing third party applications
- Supports 1.5 Tops computing power, 60 MB system memory, 400 MB smart RAM, and 2 GB eMMC storage for sharing resources
- High quality imaging with 4 MP resolution
- Excellent low-light performance with powered-by-DarkFighter technology
- Efficient H.265+ compression technology
- Clear imaging against strong back light due to 120 dB true WDR technology
- Focus on human and vehicle targets classification based on deep learning
- Water and dust resistant (IP67)

•

#### Typical Application

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

With -Y model: This model has MODERATE PROTECTION. Without -Y model: This model has NO SPECIFIC PROTECTION.

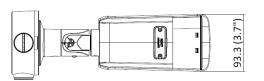

vel Description	
	Hikvision products at this level are equipped for use in areas
Top lovel protection	where professional anti-corrosion protection is a must.
Top-level protection	Typical application scenarios include coastlines, docks,
	chemical plants, and more.
	Hikvision products at this level are equipped for use in areas
	with moderate anti-corrosion demands. Typical application
Moderate protection	scenarios include coastal areas about 2 kilometers (1.24
	miles) away from coastlines, as well as areas affected by acid
	rain.
	Hikvision products at this level are equipped for use in areas
No specific protection	where no specific anti-corrosion protection is needed.
